DigiTech for Diverse Learners Regional PD Series

Modifying the A-D and F-2 digital technologies curriculum for a range of abilities.

Wangaratta Regional Study Centre Tone Road, Thursday, 22nd August

DLTVictoria, AASE Vic, and DTAC Wangaratta are excited to announce a 'hands-on' DigiTech workshop for mainstream, special, and severe developmental educators (technology leaders, teachers, and support staff) to see examples of how technology can be adapted to suit diverse learners.

All educators are welcome to get 'hands-on' experience with robots and digital tools, as well as resources and lesson ideas targeted at Levels A-D and F-2. There will be a panel of special education and technology experts ready to answer your questions.
