QUALITY DIGITAL TECHNOLOGIES
PROFESSIONAL LEARNING
PROUDLY SUPPORTED BY DLTV

EVERYONE'S A DIGITECH TEACHER:
PRIMARY WORKSHOP

Participants in this **full day workshop** will explore why Digital Technologies is a vital area for their students and will develop their ability to articulate the Digital Technologies and Digital Literacy curricula and be an exemplar of change within their school. A detailed curriculum walk-through with practical activities to enhance concepts will be undertaken. Opportunity for deeper investigation relevant to the particular audience will be provided.

Pedagogical models will be used as a self and whole school reflection tool for participants. Excellent support resources will be identified and shared. How Digital Technologies and the Digital Literacy can be addressed across subject areas will be a feature of the workshop. This workshop is specifically designed to expand and sharpen knowledge, skills and dispositions of the Digital Technologies curriculum and best practice pedagogy for teachers of students in the Primary Years.

TUESDAY 2 AUGUST 2022 | 9:30am - 3:30pm
Bayside P-12 College - Williamtown Campus
29-69 Kororoit Creek Rd, Williamstown

**FREE**   [This event is funded by **Google Educator PD grants.**]
