# Important notice re: 2020 Adjusted Study Design

Notice last updated 10/08/2021

In 2020, the Victorian Curriculum and Assessment Authority (VCAA) released an **Adjusted Study Design for VCE Applied Computing** as part of responses to restrictions caused by COVID-19 in Victoria.

**Most of the content in the DLTV VCE Applied Computing Resource Kit 2020-2024 was developed according to the *standard* VCE Applied Computing Study Design 2020-2024, not the adjusted one.**

The exception is the **trial examinations** for Software Development and Data Analytics included in the resource kit. These were designed for the adjusted study design, as noted on each cover page.

To support teachers in continuing to use these 2020 trial examinations included in the resource kit, a small set of extra questions has been added in the August 2021 update. These can be used at the teacher's discretion to augment the examinations and ensure their relevance from 2021 through to 2024.

**Copyright:** All Victorian Curriculum and Assessment Authority (VCAA) material is copyright. Area of study outcomes, key knowledge, key skills and assessment task descriptions reproduced by permission from the *VCE Applied Computing (2020–2024)* © Victorian Curriculum and Assessment Authority (VCAA). VCE is a registered trademark of the VCAA. The VCAA makes no warranties regarding the correctness or accuracy of this DLTV resource. Teachers are advised to check the [VCAA Bulletin](#) for updates. The current VCE study design and related content can be accessed directly at [www.vcaa.vic.edu.au](http://www.vcaa.vic.edu.au) and has been reproduced with permission.
